Speaker: Robbert Pullen, Jiashen Liu & Matteo Pietrobon

Title: Optiver Realized Volatility Prediction

Description:

On Friday 17th Sept, together with my colleagues Jiashen Liu and Matteo Pietrobon, we will give a workshop in which we introduce your students to **Optiver's Kaggle competition for data scientists**, called "**Optiver Realized Volatility Prediction".** Via the link below you can find more information about this Kaggle competition and a video with an "Introduction to Financial Markets and Instruments".
