

National Astronomy Meeting (NAM) 2025

Friday 11 July 2025

Crossing Boundaries: The benefits of ArtScience for contemporary astronomy research (09:00 - 10:30)

time	[id] title	presenter
09:00	[766] From experience to evidence: Making the case for meaningful interaction across art and science	
09:15	[487] Sensing the Universe: Visualisations in Cosmology	
09:30	[1024] Bioart in space: Ontological existential dimension of the biocentered experience of space	
09:40	[632] Earth, a Cosmic Spectacle	
09:50	Poster Flash Presentations	
09:56	[410] Listening to the Universe: Harnessing Sound for Inclusive Astronomy Communication	SHEPHERD, Rose
10:10	[1022] Bridging the Cosmos: Fostering Equity and Inclusion through Art and Creativity in Astronomy Research	
10:20	[221] Accessibility in Communicating Science	
10:25	[831] Elevate Your Slides: The Power of Artistic Vision in Scientific Presentations	

Crossing Boundaries: The benefits of ArtScience for contemporary astronomy research (14:15 - 15:45)

time	[id] title	presenter
14:15	[276] From Glass to Galaxies: Entangled Visions - How Art Shapes Our Understanding of the Universe	
14:25	[308] Sounds of Space Project: An Art-Science Collaboration	
14:35	[368] Exoplanets in Science Fiction	
14:45	[1023] An Early Universe	
14:55	[873] THE FINAL FUTURE: A study of human impact on near-Earth and terrestrial environments, considering our complex future on Earth and elsewhere.	
15:05	[912] Space for Everyone - Communicating Space Science Creatively	
15:20	[1021] The rise of STEAM	
15:30	[338] Incorporating arts in astronomy research and outreach at the International Astronomical Youth Camp	
15:40	[805] Teaching Astronomy with Visual Art, Poetry and Storytelling
