

National Astronomy Meeting (NAM) 2025

Friday 11 July 2025

Euclid science exploitation in the UK (09:00 - 10:30)

time	[id] title	presenter
09:00	[189] WEAVE/StePS-Euclid synergy and first Euclid emission line maps	
09:11	[197] Weak lensing cosmic shear measurement in the era of Euclid	
09:22	[203] The active galaxies of Euclid	FOTOPOULOU, Sotiria
09:33	[319] A first census of dwarf galaxies and tidal features in Euclid Q1	
09:44	[325] Discovery of bright z=7 galaxies in UltraVISTA and Euclid COSMOS	
09:55	[443] Searching for strong lenses in Q1 with Machine Learning	
10:06	[796] The FornaX XMM Heritage Programme	
10:17	[971] Probing Ultracool Atmospheres with ATMO2020 and Euclid Spectrophotometry
