

National Astronomy Meeting (NAM) 2025

Monday 7 July 2025

The Interplay between Technology and Astronomy (09:00 - 10:30)

time	[id] title	presenter
09:00	Prep time	
09:05	[494] Use of solid fused silica metalon as a wavelength calibrator for high-resolution optical EXOhSPEC spectrograph	GHOSH, Supriyo
09:20	[509] Lessons learned from WEAVE	DALTON, Gavin
09:35	[780] The Role of Artificial Intelligence in Revolutionizing Modern Astronomy	QAISER, Fawada
09:50	[788] Applications of CMB receiver technology	MCCULLOCH, Mark
10:05	[933] Insight on forecasting techniques from their application to the solar wind	Dr SIMON, Pauline
