

# National Astronomy Meeting (NAM) 2025

## Monday 7 July 2025

### Unseen Astronomy: Multi-sensory approaches for research, communication and education (09:00 - 10:30)

time	[id] title	presenter
09:00	[371] STRAUSS: Sonification Tools and Resources for Analysis using Sound Synthesis	
09:10	[385] The Tactile Universe: Communicating gravitational wave astronomy through touch and sound	
09:20	[741] Using sound to expand the accessibility of solar eclipses with LightSound	
09:30	[1002] Beyond the Visual: the Importance of sensory Practical Wisdom for Astrophysicists and Instrument Scientists	
09:40	[716] On the Basis of Sound: Sonifying Galaxy Images	
09:50	[466] Safe Space: Developing multisensory resources for disabled children	
10:00	[333] Astronify: An Open-Source Python Package to Sonify Lightcurves and Spectra	
10:10	[712] A Universe of Sound: Processing NASA Data into Sonifications to Explore Participant Response
